Everything was done to resuscitate the patient, who shortly afterward recovered consciousness. May be Compromised. Concord, N.H., June 2.—It is rumored this afternoon that an effort will be made to compromise the differences between the manufacturers and the granite cutters by having future bills of prices go into effect midway between January 1, as the former desire, and June 1, as contended for by the workmen.

WILL NOT PROSECUTE Jackson and Slavin Because the Police Had No Cognizance. LONDON, June 2.—In the house of commons to-day Wilfred Lawson asked whether proceedings would be taken against the strikers and abettors of the Jackson-Slavin fight here Monday night. The home secretary replied that he had recommended the public prosecutor to see if there was any material that would justify the prosecution of the manager of the fight, who had previously been cautioned that he would be held responsible for any breach of the law. The police did not recommend the prosecution of the principals, as the prosecution instituted against Slavin and McAuliffe after their fight had ended in an acquittal. The prosecution, he added, did not depend upon whether gloves had been used or not, as a prize fight might be fought with gloves. The contest had not occurred with the cognizance of the police. SLAVIN WINS The Fight With Con Riordan, the American Boxer, in London. LONDON, June 2.—The fight between Jack Slavin and Riordan took place to-night. Slavin defeated Riordan in nineteen rounds. An Irish Battalion Refuse to Sleep in Tents Provided for Them. DUBLIN, June 2.—Great excitement prevailed last night in Lifford, county Donegal, fourteen miles southwest of Londonderry, arising from the insubordination shown by the Fifth battalion (Donegal militia) of the Royal Inniskilling fusiliers. The men, who are performing a series of manoeuvres, were ordered to pass the night in tents that had been erected close to where the exercises were being held. These orders the troops refused to obey, declaring that the ground was wet, rendering it dangerous to sleep under canvas, and the tents were uninhabitable. The officers were highly disconcerted by the flat refusal of the men to obey orders, but they had no way to enforce obedience. They argued with the men and indulged in threats, but it was of no use. The militiamen remained firm in their determination not to occupy the tents, and the upshot of the matter was that the officers were finally obliged to billet the men in houses at Lifford. The facts in the case will be laid before the military authorities. West Virginia Pensions. Special Dispatch to the Intelligencer. WASHINGTON, D. For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this: "We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and suffering children. Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became One Complete Sore offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years she suffered fearfully with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking Hood's Sarsaparilla. I. W. FREDERICK, 311 Glenmore Ave., East New York, Brooklyn, N. Y. This Testimonial Is an illustration of what Hood's Sarsaparilla is doing for the sick and suffering every day, from Maine to California. In the light of these facts who can say that the work of an immense concern like ours is not beneficent?
